

ForzaTM
BOND | A FORCE TO BE
RECKONED WITH

Industrial CA1001T

Instant Adhesive

ForzaBOND® CA1001T is a medium-to-high viscosity surface-insensitive instant adhesive.

Benefits

- Instant Bond
- High Impact Resistance
- Excellent Heat Aging Properties
- High Heat Resistance

Product Application

- Parts should be clean and free from oils, contamination or loose surfaces (rust) for optimal results.
- If parts do not mate flush or closely together, you will need to use a product that has higher viscosity to compensate for the gap.
- Excess adhesive can be removed with Debonder.
- Store in unopened containers, out of direct sunlight and in a dry location at room temperature (75°F).
- Refrigeration can extend shelf life.

Applications

ForzaBOND® CA1001T is a medium-to-high viscosity instant adhesive designed for bonding a variety of dissimilar materials. Modified with elastomer, it offers outstanding impact resistance, durability under heat aging, and strong thermocycling performance. High end temperature resistance up to 250°F.

Technical Data

Appearance:	Clear
Specific Gravity:	1.05
Base:	Ethyl
Viscosity:	1500 CPS

Sizes

4.4 Pounds
