# H164

## Hot Melt Adhesive

**ForzaBOND® H164** is a medium setting multi-purpose clear hot melt adhesive in sticks and shapes for hand dispensing guns.

### Benefits

- Bonds variety of surfaces including porous and non-porous materials.
- Good for either low temp 250°F or regular temp 380°F
- Meets FDA Food Packaging Requirements 21 CFR 175.105

### Product Application

- ForzaBOND H164 can be dispersed through most hand held hot melt guns using the correct size stick with gun operating at 380°F.
- Apply to one side and mate the parts quickly, holding until set. Use gloves for skin protection.
- **CAUTION:** Molten adhesive may cause burns to skin upon contact.

### Applications

**ForzaBOND® H164** is designed to aggressively adhere to nearly any surface. Box assembly with hand held hot melt guns. Assembly of drawer bottoms, cabinet back, miter folding, etc.

### Technical Data

Appearance:	Clear
Base:	Ethylene Vinyl Acetate
Solids:	100%
Viscosity:	1,500 cps @ 380°F

### Sizes

PEL	MAX
TC	SS
