

ForzaTM

SEAL | A FORCE TO BE RECKONED WITH

Industrial

OS10

Performance Polymer

ForzaSEAL® OS10 is a non-hazardous, California compliant, high strength, single part moisture cure sealant.

Benefits

- Retains strong seal through impact, peel, flex, and changing temperature
- Non-yellowing
- Does not form bubbles, shrink or crack
- Highly weather resistant
- Immediately paintable
- Low temperature flexibility (properties retained to -75°F)
- High UV resistance/ Doesn't Chalkout
- Doesn't attract dust or dirt

Product Application

- Generally applied by extrusion or trowel.
- Surfaces should be clean and free of dust, oil and grease.
- Aluminum and other metals may be primed for best adhesion.
- Apply between 34°F and 150°F, in damp and dry conditions.
- The majority of its strength is developed in the first 24 hours.
- Minimum cure time is overnight, but several days may be required for maximum performance, however cure time may be accelerated at higher temperatures (do not exceed 150°F for accelerated cure).
- Most parts do not require clamping, although heavy parts may require temporary clamping to ensure desired positioning.
- Easy clean up with wet rag or alcohol.

Applications

ForzaSEAL® OS10 seals a large variety of materials including concrete, brick, aluminum, brass, steel, glass, granite, wood and many plastics. Permanently flexible and durable, and polystyrene foam board safe.

Technical Data

Skin Time:	Less than 60 minutes
Tensile Strength:	175 PSI
Elongation at Break:	241%
Shore A Hardness:	26
Color:	Gray and White
Viscosity:	High
Temperature Range:	-75 - + 400°F
Shelf Life:	12 months
Sag:	Non
Staining:	Non

Packaging

10.1 oz Cartridge	5 Gallon Pail
28 oz Cartridge	52 Gallon Drum
20 oz Sausage
