

Forza™
BOND | A FORCE TO BE RECKONED WITH

Industrial

CA2400

Instant Adhesive

ForzaBOND® CA2400 is a high viscosity surface-insensitive instant adhesive.

Benefits

- Instant Bond
- High Impact Resistance
- Excellent Heat Aging Properties
- High Heat Resistance

Applications

ForzaBOND® CA2400 is a surface-insensitive instant adhesive formulated to bond a wide range of materials. It's ideal for applications that demand faster curing, dry surfaces, or acidic parts. In most cases, handling strength is reached in under 10 seconds.

Product Application

- Parts should be clean and free from oils, contamination or loose surfaces (rust) for optimal results.
- If parts do not mate flush or closely together, you will need to use a product that has higher viscosity to compensate for the gap.
- Excess adhesive can be removed with Debonder.
- Store in unopened containers, out of direct sunlight and in a dry location at room temperature (75°F).
- Refrigeration can extend shelf life.
