

General Sealant

ForzaSEAL® OS2 is a non-hazardous, California compliant, high strength, single part moisture cure sealant.

Benefits

- Retains strong seal through impact, peel, flex, and changing temperature
- Non-yellowing
- · Does not form bubbles, shrink or crack
- Highly weather resistant
- Immediately paintable
- Low temperature flexibility (properties retained to -75°F)
- High UV resistance/ Doesn't Chalkout
- Doesn't attract dust or dirt

Product Application

- Generally applied by extrusion or trowel.
- Surfaces should be clean and free of dust, oil and grease.
- Aluminum and other metals may be primed for best adhesion.
- Apply between 34°F and 150°F, in damp and dry conditions.
- The majority of its strength is developed in the first 24 hours.
- Minimum cure time is overnight, but several days may be required for maximum performance, however cure time may be accelerated at higher temperatures (do not exceed 150°F for accelerated cure).
- Most parts do not require clamping, although heavy parts may require temporary clamping to ensure desired positioning.
- Easy clean up with wet rag or alcohol.

Applications

ForzaSEAL* OS2 seals a large variety of materials including concrete, brick, aluminum, brass, steel, glass, granite, wood and many plastics. Permanently flexible and durable, and polystyrene foam board safe.

Technical Data

5 Gallon Pail

Skin Time:	Less than 75mins @ 77°F/55% RH
Tensile Strength:	225 PSI
Elongation at Break:	252
Shore A Hardness:	47
Color:	Gray, Black, White
Viscosity:	533,000 CPS
Temperature Range:	-75°F - 400°F for limited amount of time
Shelf Life:	12mo
Sag:	Non-Sag
Staining:	Non-Staining
Packaging	
20 oz Sausage	10.1 oz Cartridge
28 oz Cartridge	52 Gallon Drum

Bead Widths (inch)	Linear Yield (FT) / oz
1/8	12.2 ft
1/4	3.05 ft
3/8	1.35 ft
1/2	9.2 in
5/8	5.88 in
3/5	4.08 in
